Subject: PacifiCorp's \$45 million (3.34%) rate increase

I am strongly opposed to granting PacifiCorp a 3.34% rate increase.

An agreement, reached in secret negotiations, filed just yesterday and already the Commission has set a formal hearing for 31 March!

The fact that the notices have been essentially buried on both the Commission's notice board & the Commission's website could make some people think that the Commission is ashamed of what it is doing. I'm one of those people.

Opinions stated are obviously mine alone as no one else would claim them
