Subject: Rocky Mountain Power Rate increase

To whom it may concern:

I am witting this email to voice my concern about the proposed rate increase involving Rocky Mountain Power. With the financial situation of the country as it is now, the increase will be very detrimental to everyone. I suggest they do some cost saving practices within their company before going to their customers first. If they say they have done the cost cutting, please have them account for each item they list. I firmly believe they have many ways of saving costs without this increase. One example is to combine job responsibilities between several individuals.

I will be unable to attend the meeting this afternoon.

Sincerely,

Judy Rohner
