

DOCKET NO. 08-035-78

Dear Commissioners

The Intermountain Combined Heat and Power Application Center encourages the commission to institute proposed changes to Rocky Mountain Power Schedule 135 as written in the December 18, 2008 Notification for Docket NO. 08-035-78.

These changes are one step toward reducing barriers to the development of clean, diversified electrical power supplies for the state of Utah and for all classes of customers.

Patti Case

Director

Intermountain Combined Heat and Power Application Center
