**Re: In the Matter of the Application of Milford Wind Corridor Phase I, LLC  
("Milford") for Certificates of Convenience and Necessity for the Milford  
Phase I and Phase II Wind Power Projects**

Dear Mr. McNulty:

In a letter dated July 25, 2008, you requested that all counsel stipulate to a continuance of the scheduling order for the hearing on the certificate in this matter, pending UAMPS' response to Milford's petition for rehearing/motion for reconsideration on the question of Commission jurisdiction, and a Commission decision on same. Milford Wind respectfully declines to stipulate.

Putting aside the issue of whether applicable law provides UAMPS with a right to respond, this is an expedited docket and time is of the essence to Milford Wind in terms of meeting its already-delayed project schedule. The parties have already briefed the jurisdictional issue several times, and Milford Wind has not raised any new arguments in its petition/motion. Assuming that UAMPS determines it wants to respond, we see no reason that such response cannot be prepared and filed by UAMPS, and the petition/motion decided by the Commission, in parallel with the parties' preparation for what should be a very simple hearing.

Please call with any questions.

Sincerely,

Michael J. Malmquist

MJM/asb
