Subject: Rocky Mountain Power's Deferred Tax Normalization Method, Docket No. 09-035-03.

On April 14, 2009 the Division of Public Utilities requested that the Commission set a date for a Technical Conference regarding Rocky Mountain Power's recommendation to change the deferred tax normalization method from 40 percent normalization to full normalization. The Division had previously inquired about the Committee's availability for the week of May 18 and the first week of June and at that time both weeks were acceptable to us. Subsequent to that conversation the Committee's consultant on this issue has become aware of a scheduling conflict that cannot be changed. Therefore, the Committee respectfully requests that the Technical Conference in this matter be scheduled for the first week of June rather than the week of May 18.
