UIEC Data Request 2.29

**UIEC Data Request 2.29**

Please explain the modifications or changes that will need to be made to Rocky Mountain Power's present method for allocating costs among the various rate schedules if the Commission allows Rocky Mountain Power to recover some, but not all, of its energy costs in an ECAM.

**Response to UIEC Data Request 2.29**

Changes to Rocky Mountain Power's method for allocating costs among the various rate schedules would be dependent upon the specific outcome that may result from the ECAM proceeding.
