Re: Advice No. 09-03
Schedule 135, Net Metering Service

Enclosed for filing are an original and two copies of proposed tariff pages associated with Tariff P.S.C.U. No. 47 of Rocky Mountain Power applicable to electric service in the State of Utah. Pursuant to the requirements of Rule **R746-405-2D**, Rocky Mountain Power (the “Company”) states that the proposed tariff sheets do not constitute a violation of state law or commission rule. The Company will also provide an electronic version of this filing to tbehr@utah.gov. The Company respectfully requests an effective date of April 1, 2009.

Eleventh Revision of Sheet No. B.1A		Tariff Index Sheet
Second Revision of Sheet No. 135-1	Schedule 135	Net Metering Service
Second Revision of Sheet No. 135-2	Schedule 135	Net Metering Service
First Revision of Sheet No. 135-3	Schedule 135	Net Metering Service
Original Sheet No. 135-4	Schedule 135	Net Metering Service

Rocky Mountain Power is proposing changes to its Schedule 135 to make it consistent with requirements set forth by the Commission Order issued on February 12, 2009 under Docket No. 08-035-78. The proposed changes to Schedule 135 remove the reference to the net metering cap, create new definitions, address the rate that excess generation will be credited and clarify that any non-energy attributes are retained by the owner of the renewable energy facility.

In the Order, Utah Schedule 15, Outdoor Nighttime Lighting Service, Traffic and Other Signal System Service Customer-Owned Systems was not addressed. Rocky Mountain Power does not oppose customer net meter installations under Utah Schedule 15. Rocky Mountain Power recommends classifying Schedule 15 as small non-residential customers.

It is respectfully requested that all formal correspondence and staff requests regarding this matter be addressed to:
