Re: DO NOT REDOCKET  
Advice No. 09-03, Replacement Pages  
Schedule 135, Net Metering Service

Enclosed for filing are an original and two copies of proposed tariff pages associated with Tariff P.S.C.U. No. 47 of Rocky Mountain Power applicable to electric service in the State of Utah. Pursuant to the requirements of Rule **R746-405-2D**, Rocky Mountain Power (the "Company") states that the proposed tariff sheets do not constitute a violation of state law or commission rule. The Company originally filed proposed tariff sheets on March 16, 2009, but received comments back from the Utah Division of Public Utilities ("Division") in response to an Action Request. The Division's comments addressed three primary areas; a change in the language on Paragraph 2.A, a clarification of the application of the minimum bill, and a removal of the reference to the year "2009" in Paragraph 2.B.iii. The Company has incorporated the Division's recommendations into tariff pages 135-1 and 135-3. For administrative ease, all Schedule 135 tariff pages are included with this filing. The other tariff pages, however, are unchanged from those provided with the initial filing made on March 16, 2009. The Company will also provide an electronic version of this filing to [tbehr@utah.gov](mailto:tbehr@utah.gov). The Company respectfully requests an effective date of April 1, 2009.
