RE: Docket No. 10-035-124
December 2010 Results of Operations, Cost of Service Study and Wind Resources
Report

In compliance with the Commission's March 30, 2011, Order on Test Period in this docket, Rocky Mountain Power hereby submits for filing PacifiCorp's Semi-annual Results of Operations report and Cost of Service study for the Utah jurisdiction for the twelve months ended December 2010. Included are an electronic copy on CD and three hard copies of both reports.

Also enclosed is a confidential copy of the net power cost detail report. Along with its semi-annual Results of Operations Report, the Company has traditionally provided a detailed report of normalized net power costs including unit costs of individual resources. The Results of Operations Report continues to contain summary net power cost information, however, the unit cost information for certain contractual resources should remain confidential.

Also enclosed is the confidential 2010 Wind Resources Report. This report is provided in compliance with the Commission's final order in Docket No. 07-035-93, and includes the name, nameplate capacity, actual generation and actual capacity by month for each wind resource. Such monthly information should remain confidential.

Confidential information is provided subject to the terms and conditions of the protective order in this docket. If there are any questions related to these reports, or other additional matters that the Commission or other parties wish to discuss, we are available at your convenience. Please don't hesitate to contact Dave Taylor at 801-220-2923.

Sincerely,

Jeffrey K. Larsen
Vice President, Regulation
