Re: Docket No. 10-035-124

Dear Mr. Taylor,

As directed by the Commission, on April 18, 2011, PacifiCorp, dba Rocky Mountain Power ("Company") filed its year-end December 2010 semi-annual results of operations report, and year-end 2010 cost of service study in Docket No. 10-035-124.

Upon review of this filed document, Commission staff has identified monthly state load input errors. Specifically, the date and time of actual monthly system coincident peak appears to be misstated for April, May, July, August and December. Consequently, the state coincident loads for these months are also misstated. The Commission directs the Company to file in Docket No. 10-035-124 a corrected version of the semi-annual report and cost-of-service study by May 5, 2011, using the monthly state loads at the time of actual monthly system coincident peaks in calendar year 2010.

Sincerely,

/s/ Julie Orchard
Commission Secretary
