Yvonne,

The Company has objected to most of these requests. We disagree with the Company's position. We believe that a comparison between how other MidAmerican public utilities and companies hedge natural gas and how PacifiCorp hedges natural gas is important in understanding PacifiCorp's policies for hedging and directly relevant in this case.

Please reconsider your position on these objections.

Subject: RE: UT 10-035-124 Rocky Mountain Power's Response to UIEC Set 9 (1-17)

Vicki,

The Company has not asked me to assist on this issue in the rate case except indirectly through Mark's email in this string. As you probably know, Katherine McDowell is handling the net power cost issue in the general rate case. I am copying her on this response.

That said and subject to any input from Katherine or Paul, I understand that the Utah regulatory people are attempting to arrange for someone in Greg Duvall's group to be available this afternoon to discuss the issue with your experts. I don't know if they will be able to make those arrangements, but they are trying to do so.

Please let me know if there is anything else I can do.

Greg and/or Paul,

The Company has objected to most of our set 10 requests. We disagree with the Company's position. If the executives or affiliates of PacifiCorp, MEHC, and/or Berkshire Hathaway have any type of interests that could influence the way PacifiCorp makes its hedging decisions, that is extremely relevant to the prudence of RMP's hedging decisions. The questions in our set 10 are reasonably calculated to lead to the discovery of such evidence. Accordingly, please reconsider your objections and provide the requested information.

Subject: RE: UT 10-035-124 Rocky Mountain Power's Response to UIEC Set 10 (1-17)

Vicki,

I am catching up on these issues, but note again that Katherine McDowell is the attorney handling net power cost issues in the rate case. She would be your best source for information on responses to data requests dealing with net power costs.

In the meantime and without limiting the foregoing, I understand that the Company has agreed to produce highly confidential portions of its 10-year plan for review by your experts today in response to Data Request 6.46. We believe that should resolve any disagreement on that request. You have also raised disagreement with the Company's response to Data Request 9.5 and to its objection to questions in UIEC's 10th set of Data Requests. I understand that Greg Duvall is not available today and that the Company's attorneys need to consult with him before responding to the disagreement on those requests. We hope to be able to provide a further response to you on them tomorrow. However, I also understand that the Company is attempting to schedule a call with your experts for later this afternoon in an effort to gain some clarity about what UIEC needs.

I hope the foregoing is helpful and that it avoids the necessity of your filing a motion to compel. It appears to me that there is a good likelihood that the discovery issues will be resolved over the next few days.

We hope to be able to provide a further response to you on them tomorrow. However, I also understand that the Company is attempting to schedule a call with your experts for later this afternoon in an effort to gain some clarity about what UIEC needs.

I hope the foregoing is helpful and that it avoids the necessity of your filing a motion to compel. It appears to me that there is a good likelihood that the discovery issues will be resolved over the next few days.

Subject: RE: UT 10-035-124 Rocky Mountain Power's Response to UIEC Set 10 (1-17)

Greg and/or Paul,

The Company has objected to most of our set 10 requests. We disagree with the Company's position. If the executives or affiliates of PacifiCorp, MEHC, and/or Berkshire Hathaway have any type of interests that could influence the way PacifiCorp makes its hedging decisions, that is extremely relevant to the prudence of RMP's hedging decisions. The questions in our set 10 are reasonably calculated to lead to the discovery of such evidence. Accordingly, please reconsider your objections and provide the requested information.

Yvonne,

The Company has objected to most of these requests. We disagree with the Company's position. We believe that a comparison between how other MidAmerican public utilities and companies hedge natural gas and how PacifiCorp hedges natural gas is important in understanding PacifiCorp's policies for hedging and directly relevant in this case.

Please reconsider your position on these objections.

Subject: RE: UT 10-035-124 Rocky Mountain Power's Response to UIEC Set 10 (1-17)

Vicki, here is a summary of the status of the data requests about which UIEC has raised follow-up questions.

Rocky Mountain Power intends to serve supplemental responses today for the following data requests: UIEC 5.7; UIEC 6.46; UIEC 9.5; UIEC 9.9, UIEC 9.15 and UIEC 10.52.

We have located trade tickets for the Morgan Stanley contracts and are in the process of determining whether these are highly confidential or confidential. If they are confidential, we will provide these by supplemental response to UIEC 9.2. Otherwise, we will make these available for your review, along with the highly confidential risk committee minutes for 2009 that were unavailable on Monday (these were responsive to UIEC 9.9).

I understand that Yvonne previously communicated our position on UIEC set 10, regarding hedging information for affiliates of PacifiCorp. We continue to object to providing responses to these data requests, which we believe are far outside the scope of proper discovery in this proceeding.

I believe this responds to all outstanding discovery issues with UIEC. Please let us know if any additional issues remain.

Best regards, Katherine

Vicki,

I am catching up on these issues, but note again that Katherine McDowell is the attorney handling net power cost issues in the rate case. She would be your best source for information on responses to data requests dealing with net power costs.

In the meantime and without limiting the foregoing, I understand that the Company has agreed to produce highly confidential portions of its 10-year plan for review by your experts today in response to Data Request 6.46. We believe that should resolve any disagreement on that request. You have also raised disagreement with the Company's response to Data Request 9.5 and to its objection to questions in UIEC's 10th set of Data Requests. I understand that Greg Duvall is not available today and that the Company's attorneys need to consult with him before responding to the disagreement on those requests. We hope to be able to provide a further response to you on them tomorrow. However, I also understand that the Company is attempting to schedule a call with your experts for later this afternoon in an effort to gain some clarity about what UIEC needs.

I hope the foregoing is helpful and that it avoids the necessity of your filing a motion to compel. It appears to me that there is a good likelihood that the discovery issues will be resolved over the next few days.

Katherine,

With respect to the Company's refusal to cooperate on our Request Set 10, according to the 10Ks PacifiCorp does its hedging differently than its sister company MidAmerican Energy. We are entitled to find out the reason for this, when there are sister companies with the same parent, the same or almost the same officers, there should be a reason why they behave so differently. We are prepared to file a motion to compel or alternatively to notice an officer for deposition.

Subject: RE: UT 10-035-124 Rocky Mountain Power's Response to UIEC Set 10 (1-17)

Vicki, here is a summary of the status of the data requests about which UIEC has raised follow-up questions.

Rocky Mountain Power intends to serve supplemental responses today for the following data requests: UIEC 5.7; UIEC 6.46; UIEC 9.5; UIEC 9.9, UIEC 9.15 and UIEC 10.52.

We have located trade tickets for the Morgan Stanley contracts and are in the process of determining whether these are highly confidential or confidential. If they are confidential, we will provide these by supplemental response to UIEC 9.2. Otherwise, we will make these available for your review, along with the highly confidential risk committee minutes for 2009 that were unavailable on Monday (these were responsive to UIEC 9.9).

I understand that Yvonne previously communicated our position on UIEC set 10, regarding hedging information for affiliates of PacifiCorp. We continue to object to providing responses to these data requests, which we believe are far outside the scope of proper discovery in this proceeding.

I believe this responds to all outstanding discovery issues with UIEC. Please let us know if any additional issues remain.

Best regards, Katherine

Subject: RE: UT 10-035-124 Rocky Mountain Power's Response to UIEC Set 10 (1-17)

Vicki,

I am catching up on these issues, but note again that Katherine McDowell is the attorney handling net power cost issues in the rate case. She would be your best source for information on responses to data requests dealing with net power costs.

In the meantime and without limiting the foregoing, I understand that the Company has agreed to produce highly confidential portions of its 10-year plan for review by your experts today in response to Data Request 6.46. We believe that should resolve any disagreement on that request. You have also raised disagreement with the Company's response to Data Request 9.5 and to its objection to questions in UIEC's 10th set of Data Requests. I understand that Greg Duvall is not available today and that the Company's attorneys need to consult with him before responding to the disagreement on those requests. We hope to be able to provide a further response to you on them tomorrow. However, I also understand that the Company is attempting to schedule a call with your experts for later this afternoon in an effort to gain some clarity about what UIEC needs.

I hope the foregoing is helpful and that it avoids the necessity of your filing a motion to compel. It appears to me that there is a good likelihood that the discovery issues will be resolved over the next few days.

Greg and/or Paul,

The Company has objected to most of our set 10 requests. We disagree with the Company's position. If the executives or affiliates of PacifiCorp, MEHC, and/or Berkshire Hathaway have any type of interests that could influence the way PacifiCorp makes its hedging decisions, that is extremely relevant to the prudence of RMP's hedging decisions. The

questions in our set 10 are reasonably calculated to lead to the discovery of such evidence. Accordingly, please reconsider your objections and provide the requested information.

Yvonne,

The Company has objected to most of these requests. We disagree with the Company's position. We believe that a comparison between how other MidAmerican public utilities and companies hedge natural gas and how PacifiCorp hedges natural gas is important in understanding PacifiCorp's policies for hedging and directly relevant in this case.

Please reconsider your position on these objections.

Subject: RE: UT 10-035-124 Rocky Mountain Power's Response to UIEC Set 10 (1-17)

Vicki,

I am catching up on these issues, but note again that Katherine McDowell is the attorney handling net power cost issues in the rate case. She would be your best source for information on responses to data requests dealing with net power costs.

In the meantime and without limiting the foregoing, I understand that the Company has agreed to produce highly confidential portions of its 10-year plan for review by your experts today in response to Data Request 6.46. We believe that should resolve any disagreement on that request. You have also raised disagreement with the Company's response to Data Request 9.5 and to its objection to questions in UIEC's 10th set of Data Requests. I understand that Greg Duvall is not available today and that the Company's attorneys need to consult with him before responding to the disagreement on those requests. We hope to be able to provide a further response to you on them tomorrow. However, I also understand that the Company is attempting to schedule a call with your experts for later this afternoon in an effort to gain some clarity about what UIEC needs.

I hope the foregoing is helpful and that it avoids the necessity of your filing a motion to compel. It appears to me that there is a good likelihood that the discovery issues will be resolved over the next few days.

Greg

Greg and/or Paul,

The Company has objected to most of our set 10 requests. We disagree with the Company's position. If the executives or affiliates of PacifiCorp, MEHC, and/or Berkshire Hathaway have any type of interests that could influence the way PacifiCorp makes its hedging decisions, that is extremely relevant to the prudence of RMP's hedging decisions. The questions in our set 10 are reasonably calculated to lead to the discovery of such evidence. Accordingly, please reconsider your objections and provide the requested information.

Yvonne,

The Company has objected to most of these requests. We disagree with the Company's position. We believe that a comparison between how other MidAmerican public utilities and companies hedge natural gas and how PacifiCorp hedges natural gas is important in understanding PacifiCorp's policies for hedging and directly relevant in this case.

Please reconsider your position on these objections.

Yvonne,

We do not feel that these answers are responsive. PacifiCorp and MidAmerican Energy have common officers and the documents are in the possession or control of those common officers and therefore, we think you do have access to any documents that would be necessary to provide more responsive answers.

Nevertheless, because we weren't getting responsive answers before, we crafted what we hope are more detailed and articulate requests in our Set 20. They are due on April 29. If we get responses similar to these, we will have a motion to compel ready to file.

Please call me if you would like to discuss to try to work this out prior to April 29.

Thank you.

Subject: RE: UT 10-035-124 Rocky Mountain Power's Response to UIEC Set 19 (1-13)

Yvonne,

I found the Company's supplement to our 10.3. It was provided on April 12. However, we find it, and therefore several of the responses to our set 19, to be unresponsive. This seems to be the issue upon which we are not going to get any responsive answers from the Company. We have another set, set 20, with questions on the same subject and those responses are due tomorrow. It is our position that because the financial officers of the companies are the same, we should be able to gain this information from the Company. As I've indicated before, it is not an issue we can back away from. We will file a motion to compel if necessary.
