**Subject:** Addition of Pollution Control Equipment At PacifiCorp's Hunter Plant

Within the next few days, PacifiCorp will be submitting a Notice of Intent to the Utah Division of Air Quality. The purpose of the Notice of Intent is to permit the installation of pollution control equipment that is being added to the facility, as well as notify the state of other anticipated projects associated with ongoing maintenance activities.

You have been identified as an interested party/intervenor that either signed or participated in the development of one or more of the state stipulation agreements that led to the approval of MidAmerican's acquisition of PacifiCorp. Accordingly, PacifiCorp is notifying you that a Notice of Intent is being submitted to the Utah Division of Air Quality. The notice of intent can be found on the PacifiCorp website at:
