Utah Public Service Commission
Fourth Floor, Heber Wells Building, 160 East 300 South
Salt Lake City, UT 84111

Dear Service Commission,

I'm concerned that Rocky Mountain Power is raising rates and that concerns me. I get a bit angry every time I see an advertisement for Rocky Mountain Power on the TV (which I see a lot) and wonder why they feel the need to do this. I am sure there is a lot of money spent on these advertisements and perhaps if that were stopped, the rates would not need to be raised. There really is no need for advertising when Rocky Mountain Power is our only real option for power in this area.

Sincerely,
Alice Edvalson
