Proposed 500kV and 345kV Transmission Lines

Legend
- Proposed Access Road
- Proposed Right-of-way
- Proposed Conductor Pull Site
- Substation
- New Substation Site
- Unimproved Road
- Light Duty Road
- 345kV Transmission Line (Existing)
- 46kV Subtransmission Line (Existing)
- Municipal Boundary
- Secondary Highway
- Railroad
- Fault Line
- 100-year Floodplain
- 500-year Floodplain
- Moderate Liquefaction Potential
- High Liquefaction Potential
- Landslide Area

Natural Hazards
- Fault Lines, AGRC and USGS 1990
- Landslide Areas, USGS 1987
- Liquefaction Potential, UGS and USU 1994
- Floodplains, FEMA 1995, 2009
- County Boundaries, Utah AGRC 2004
- Transmission Lines & Substation Locations, PacifiCorp

Aerial Imagery Source Information
- Imagery Date: 2009
- Source: DigitalGlobe
- Resolution: 0.5 Meter
- Projection: UTM Zone: 12
- Datum: NAD 83
