To Whom It May Concern:

RECEIVED

I am writing to comment on the proposed Rocky Mountain Power Mona to Oquirrh power line in Tooele City. I am opposed to the proposed location through the southern end of Tooele City and through the heart of the Oquirrh Mountains. As a resident of Tooele City, I value the magnificent views of the Oquirrh Mountains that we have in Tooele City. The proposed location of the power line through the Oquirrh Mountain bench would destroy forever one of Tooele City's most beautiful assets.

The sad part of this proposal is that there are other locations that this could be built. The Tooele County Commission and the Tooele City Council have proposed other locations within our county to built this power line. These would allow Rocky Mountain Power to supply the power it needs for Salt Lake County without destroying (as much) the beauty of Tooele County. I support the actions of the Tooele County Planning Commission, Tooele County Commission, and Tooele City Council to reject the proposed location of the power line through Tooele City.

Thanks for your consideration and for supporting the beauty and health of Tooele City residents.

David Manzione
