May 10, 2010

RECEIVED

To Whom It May Concern,

After further reviewing the docket 10-035-39 I have developed concerns and questions as to how this will benefit the citizens of Grantsville. I find that there are no benefits to the community at this time and I wonder why this is being proposed to be developed in this great city?

After discussing this with some of the residents of Grantsville I wonder why Rocky Mountain has not looked at some of the other proposals that wont impact the city as much. What about health concerns for the community? Has this been studied as far as an impact on the environment?

Please consider other alternatives! Thank your time.

Sincerely,

Mary J.Lindsay-Vonk
