**Subject:** NO! to the Proposed Power Line in Tooele County

UTAH PUBLIC  
SERVICE COMMISSION

2010 MAY 10 A 11: 26

215216

RECEIVED

I am adamantly opposed to the installation of power lines across our beautiful Tooele mountainside. One of the reasons I purchased a home in the Tooele valley is because of the natural landscape and rural scenery.

If your proposed power lines are installed on our hillside they will be a scar on the beauty of our homeland. If I wanted to view harsh, industrial, and metropolitan type landscape I would have bought on the other side of the mountain in the Salt Lake Valley. However, I did not and will never agree to this horrendous attempt to scar our beautiful county.

As a current customer of your power service I have been pleased. However, if this change goes through and the powerlines are installed, I will immediately explore other options. I am only interested in supporting a power supply company that has my best interests in mind and works to protect the environment and landscape that we as community members have chosen live in.

Please find another route for your powerlines.

Tooele County Property Owner,

Rebecca L. Ryals
