Dear Board Members,

RECEIVED

Please do not allow Rocky Mountain to come in to our community and put all of us and our way of life in danger! We live in Tooele County for a reason, to get out of the city and away from every thing there is about the city. Including big ugly power lines spider webbing our whole city. Tooele county is not testing grounds or a place to dump your hazardest waist or a place every one thinks they can come in and do what ever it is they wish to do here. Please make a stand and let them know Tooele county is a great place to live and that's the way we want to keep it.

Thank you,

Concerned resident
Jodie Barney
