RECEIVED

To whom it may concern:

I have been a Tooele County resident my entire life, and have had the opportunity to enjoy the beautiful Tooele Valley and mountain areas. I have worked very hard to build a beautiful home on the East bench of Tooele, very near to RMP's *proposed* Mona to Oquirrh power line route. I believe running the power lines via this route, would not only cause environmental problems/health concerns, but **DESTROY** the beautiful views/area that I (and many others) have worked so hard to reside near.

I realize the importance of having adequate power supply, however, there are other routes that have been proposed in Tooele County that would not affect residents' property/views, etc. I (along with many other concerned Tooele County residents) respectfully request that the power lines be built via a route that does not impact the issues/concerns addressed above.

Please contact me if additional information, etc. is required.

Thank you,

Allison Turner
