To whom it may concern;

I have just found out about your decision about the Mona to Oquirrh power line route decision. I am very disappointed in your decision and feel that the commission has failed the citizens of the Tooele County.

The article in the Transcript Bulletin and sounds like the commission just rolled over top the power companies desires. You had the power to at least investigate the other proposed routes and did not. What a farce! I do not believe you did due diligence to investigate what the commission was supposed to investigate in this matter.

A very concerned citizen
Jaimie Caldwell
