Re: Application of Rocky Mountain Power for Approval of Standard Non-reciprocal Pole Attachment Agreement, Docket No. 10-035-043

**RECOMMENDATION:** No action is required. The attached redlined standard contract is for informational purposes for the intervening parties.

**DISCUSSION**

On or about April 27, 2010, Rocky Mountain Power (“Company”) filed with the Public Service Commission (“Commission”) an application for approval of a Standard Non-Reciprocal Pole Attachment Agreement (“Agreement”). A Scheduling Conference was held on July 27, 2010. As a result of the Scheduling Conference, the Division was asked to file a redlined version of the Safe Harbor agreement approved by the Commission in Docket No. 04-999-03 compared to the Standard Non-reciprocal Pole Attachment Agreement filed by the Company in this docket. Attached to this memo please find the redlined contract as discussed at the Scheduling Conference. Many of the changes are outlined in the Company’s June 29, 2009 Application for Approval of Pole Attachment with TCG Utah in Docket No. 09-035-52.

The Division files this redlined version of the contracts for informational purposes in order to facilitate the process of reviewing the two contracts by the intervening parties and in preparing comments. The Division will file a summary matrix of issues and submit comments as directed by the upcoming Scheduling Order.
