Commission Administrator

Re: In the Matter of the Notice of Proposed New Rule 746-700, Standards for Interconnection of Electrical Generating Facilities to Public Jurisdiction Under the Public Service Commission, Docket 09-R312-01; DAR File No. 32881; State Admin. Rule Filing Key: 148759; Utah Admin. Code Ref. (R no): R746-312-

Rocky Mountain Power hereby submits for filing to the Public Service Commission of Utah (“Commission”) an original and five (5) copies each of its revised standard form agreements for: (1) Interconnection Facilities Study Agreement Level 3 Net Metering Interconnection Review; (2) Impact Study Agreement Level 3 Net Metering Interconnection Review; (3) Interconnection and Net Metering Service Agreement for Net Metering Facility Level 1 Interconnection; (4) Interconnection and Net Metering Service Agreement for Net Metering Facility Level 2 Interconnection; and (5) Interconnection and Net Metering Service Agreement for Net Metering Facility Level 1 Interconnection.

These filings are made in response to comments received from the Division of Public Utilities and are intended to comply with the draft Electrical Interconnection rule, R746-312. In addition to the edits proposed by the Division, Rocky Mountain Power has added language to reflect changes to Utah Code § 54-2-1.16(d), which created exemptions from the ownership or lease requirements for certain customers. Rocky Mountain Power does not believe this is a material change to the agreement as it merely reflects the statutory requirements.

Rocky Mountain Power is submitting separately for filing its standard form agreements for interconnection, which have already been approved for use by the Federal Energy Regulatory Commission, and have been revised to reflect the requirements of the Commission’s interconnection rule.

Please contact me directly at (801)220-4014 if you have any questions.

Very Truly,

Daniel E. Solander
Senior Counsel
