Attention: Julie P. Orchard
Commission Secretary

Re: Docket No. 10-035-T05

On July 19, 2010 in the above referenced docket, the Public Service Commission of Utah (Commission) issued its order approving modifications to Rocky Mountain Power's (Company) Home Energy Savings Program, administered through Schedule 111, proposed by the Company in Advice No. 10-05. In that order, the Commission directed the Company to file revised tariff sheets reflecting the decisions rendered in the order within one week of the date of its issuance. In compliance with the Commission's direction, the Company submits the attached tariff sheets for Schedule 111 reflecting the Commission's order in the above referenced docket.

In the order, the Commission directed that Provision of Service 5 in Schedule 111 be revised to provide additional clarity regarding the amount of time a program participant has to submit a program application after making a qualifying purchase. Language ordered by the Commission to be included as Provision of Service 5 is as follows:

“Changes to incentive offer availability, incentive levels and qualifying Equipment or Services will become effective a minimum of 45 days after being filed with the Public Service Commission of Utah, subject to Commission order. Changes will be prominently displayed on the program website and will be communicated at least once to retailers who have participated in the program within one year preceding the date of the change.”

In addition, the Commission ordered the program modifications approved under this docket to become effective September 1, 2010. The attached tariff sheets for Schedule 111 reflect these modifications as ordered by the Commission.

It is respectfully requested that all formal correspondence and staff requests regarding this matter be addressed to:
