RE: Advice No. 10-11
Docket Number: 10-035-T12, "In the Matter of: Rocky Mountain Power files proposed changes to Schedule 135, Net Metering Service"

Dear Mr. Taylor:

Regarding Rocky Mountain Power's ("Company") November 30, 2010, cover letter and revised tariff sheet filed in Docket No. 10-035-T12, the Division of Public Utilities ("Division") filed a Memorandum on December 23, 2010, recommending the Commission approve the Company's proposed change to Schedule No. 135, "Net Metering Service" with one change. For clarification, the Division recommended inserting the phrase "operating a renewable generating facility" after the (Company's) phrase "independent energy producer" in the Schedule No. 135, section entitled "Application." On January 4, 2011, the Company indicated its agreement with the Division's proposed modification and filed a revised tariff sheet reflecting this change.

The Commission has reviewed the Company's proposed revision to Schedule No. 135, the Division's Memorandum proposing a minor wording insertion, and the Company's January 4th revised tariff sheet. Now therefore, the Company's revision to Schedule No. 35 is approved by the Commission effective December 31, 2010.

Sincerely,

/s/ Julie Orchard
Commission Secretary
