**Subject:** Rocky mountain power increase

*Docket No. 11-035-200*

We all need more money to get along in today's rising cost. While living (surviving) on a fixed income this is hard to do. Every business wants more-more-more. Where does it stop. WE NEED MORE EMPLOYMENT to cut these increases and make these businesses happy.

But for this business to want to build a nest egg though this proposal, along with the two increases they had last year I vote-----NO

This E-mail was prompted though the AARP discussion on June, 15 2012

Your truly  
Marvin & Joan Lee
