By the Commission:

On August 4, 2011, Applicant Deseret Generation & Transmission Co-operative (>Deseret@) filed an application seeking authority pursuant to Utah Code Ann. ' 54-4-31 to issue certain securities in the form of two (2) Secured Promissory Notes in the amount of approximately: (i) \$20,000,000.00; and (ii) \$40,000,000.00, respectively, related to a restated revolving line of credit (the "Restated Credit Line") for working capital financing; and a long-term loan agreement (the "2011 Term Loan"). Applicant requested Informal Adjudication of the Application under R746-110, Rules of the Public Service Commission, and represented that the matter was anticipated to be unopposed and uncontested. Finally, Applicant requested a waiver by the Commission of the 20-day tentative period under R746-110-2 for good cause shown on the basis that the Supplemental Credit Line, in order to provide maximum protection and flexibility to Deseret, must be final and fully enforceable in full force and effect at all times without being subject to any appeal or protests.

Applicant has submitted copies of the relevant documents, certified and verified pursuant to the Verified Application, and other information to establish the facts pertinent to the Application.

FINDINGS OF FACT

1. In October, 1996, Deseret entered into a comprehensive financial restructuring involving secured creditors who, at that time, agreed to a long-term financial forbearance and, together with other major creditors in December 1998, finalized a substantially permanent financial recapitalization of the Company. As part of the 1996 Restructuring, as incorporated into and made a part of the 1998 Recapitalization, Deseret entered into a \$20 million line of credit (the "Existing Line of Credit") with the National Rural Utilities Cooperative Finance Corporation ("CFC") which can be used for debt service and general corporate purposes. The Commission gave Deseret authorization to enter into and to secure the Existing Line of Credit pursuant to its Report and Order dated July 3, 1996 in Docket No. 96-506-01. The Existing Line of Credit was further amended and extended, as approved and authorized pursuant to the Commission's Report and Order dated January 18, 2002, in Docket No. 01-506-01 and its Report and Order dated October 12, 2007 in Docket No. 07-506-01. Deseret has not drawn on the Existing Line of Credit to date.

2. Applicant has stated that it anticipates potential liquidity needs during the coming months related to several factors, including without limitation repairs and maintenance at the Bonanza Unit 1 ("Bonanza"), ongoing maintenance projects and/or capital improvement projects which have taken place and/or which are anticipated at the Hunter 2 Unit ("Hunter 2") which it jointly owns with another public utility; reduction in anticipated revenue occasioned as a result of a planned maintenance outage at Bonanza; increased expenditures for mine-safety related equipment and other capital replacements at the Deserado Mine operated by Deseret's wholly owned subsidiary, Blue Mountain Energy, Inc. ("BME"); and potential obligation to make

payments for certain capital improvements at Hunter 2, payment of which might deplete Deseret's available cash and/or liquid assets otherwise available to finance working capital needs and finance capital improvements.

3. Applicant has negotiated the terms of the Restated Credit Line with CFC as an additional potential working capital financing resource for its liquidity needs. The Restated Credit Line will be secured by a first-priority lien of a restated mortgage from Deseret to CFC and will supplement, and will not replace, a supplemental line of credit between Deseret and CFC executed earlier this year, 2011.

4. Applicant has negotiated the terms of the 2011 Term Loan with CFC as a long-term financing resource for anticipated and/or potential capital investment requirements as well as other corporate financing purposes. The 2011 Term Loan will be secured by a first-priority lien of a restated mortgage from Deseret to CFC.

5. Applicant states that the Restated Credit Line and the 2011 Term Loan would provide increased flexibility and continued credit resource(s) in the event that Applicant's liquidity needs in the coming months and years experience the full potential of possible demands for financing due to the factors identified above.

6. Applicant has represented that the proposed Restated Credit Line and 2011 Term Loan represent the best available means available to Deseret to maintain a necessary financial working capital source(s) in the event of liquidity needs for debt service or ongoing operations to address certain potential eventualities, as well as long-term financing for capital investment and other corporate financing purposes. The Restated Credit Line and 2011 Term Loan were each

approved by Deseret's Board of Trustees at a regularly scheduled meeting of the board on July 21, 2011.

7. The Division of Public Utilities has reviewed the application, recommended that the granting of the application was in the public interest, and that the Commission should approve it.
