UIEC Data Request 1.8

**UIEC Data Request 1.8**

Please provide separately by month for the years 2008, 2009, 2010, and 2011, the value PacifiCorp attributed to the number of kilowatt-hours PacifiCorp generated or acquired from renewable energy systems or RECs each month and explain what valuation methodology PacifiCorp used and why.

**Response to UIEC Data Request 1.8**

The Company objects to this data request on the basis that it is ambiguous. Notwithstanding the objection, the Company does not attribute a value to the renewable energy credits (RECs) it generates until the REC is actually sold. After a REC is sold, the Company then attributes the value based on the contract sales price.
