RE: Rocky Mountain Power Comments
In the Matter of the Request for a Home Energy Report Pilot Program – Docket
No. 12-035-77

Dear Mr. Widerburg:

On September 2, 2014, Rocky Mountain Power (“Company”) submitted to the Public Service Commission of Utah (“Commission”) in Docket No. 12-035-77 (“Docket”), a request for extension and expansion (“Request”) of the Home Energy Report Pilot Program (“Program”), with an effective date of September 15, 2014. As stated in the Company’s Request, the Company has worked closely with the DSM Steering Committee and has gained consensus among DSM Steering Committee members in support of expanding the Program and the September 15, 2014 effective date.

The Company submitted a filing concurrently herewith, amending the Request to ask the Commission to remove the \$3.2 million budget cap (“Cap”) that was established in the Commission’s May 15, 2012 Order in the Docket. The Company updated the Steering Committee regarding the same, and received no opposition to removing the Cap.

The Company respectfully requests the Commission still approve the September 15, 2014, effective date for the Program, even if the Commission decides to allow additional time for comments on the Cap removal.

Sincerely,

Kathryn Hymas
Vice President, Finance and Demand-side Management
