RE: Rocky Mountain Power Amendment to September 2, 2014 Request for Expansion
In the Matter of the Request for a Home Energy Report Pilot Program – Docket No. 12-035-77

Dear Mr. Widerburg:

On September 2, 2014, Rocky Mountain Power (“Company”) submitted to the Public Service Commission of Utah (“Commission”) in Docket No. 12-035-77 (“Docket”), a request for extension and expansion (“Request”) of the Home Energy Report Pilot Program (“Program”), with an effective date of September 15, 2014. The Company is amending the Request to ask the Commission to remove the \$3.2 million cap (“Cap”) established in the Commission’s May 15, 2012 Order issued in the Docket. The amendments to the Request occur on pages 5 and 6.

The amended filing to remove the \$3.2 million cap was communicated to the Utah Demand-side Management Steering Committee. Members of the Steering Committee support removing the Cap.

Accordingly, the Company hereby submits for filing both a redlined and clean Amended Page 5 and 6, attached hereto, which includes the aforementioned request to remove the Cap. Pages 5 and 6 from the Request should be replaced in their entirety with the amended pages. Please note that no other information in the Request has been altered. An original and ten (10) copies of this filing will be provided via hand delivery. The Company will also provide electronic versions of this filing to psc@utah.gov.

Sincerely,

Kathryn Hymas
Vice President, Finance and Demand-side Management
