**RE: FREEDOM OF INFORMATION ACT REQUEST**

Pursuant to the Freedom of Information Act (“FOIA”), 5 U.S.C. 552, on behalf of my client, I request the following federal government records in connection with EPA’s recent request to modify the Consent Decree entered on September 27, 2011 (Dkt. No. 67) in *WildEarth Guardians v. Jackson*, 1:11-cv-0001 (D. Colo.). On December 10, 2012, EPA filed an unopposed motion (the “Motion”) seeking to extend certain deadlines governing EPA’s proposed and final actions on Wyoming’s regional haze implementation plans contained within the Consent Decree. (Dkt. No. 70). In its Motion, attached here, EPA stated that the extensions are necessary as a result of new information that EPA contends is significant and should be provided to the public, as well as communications it had with others about the new information and the Motion. (*Id.* at 4.)

This FOIA requests seeks the new information EPA identifies and refers to in its Motion to the extent that information has not been posted to the rulemaking docket for the Wyoming regional haze state implementation plan referred to in the Consent Decree, EPA-R08-OAR-2012-0026, FRL-9678-9 (the “Wyoming Regional Haze Docket”), as well as communications about modifications to the Consent Decree. Specifically, and with this limitation, I request the following documents, records, and information:

- All records, files, reports, memoranda, correspondence and documents in your possession regarding conversations held “on several occasions” with counsel or representatives of WildEarth Guardians, including but not limited to Ashley Wilmes, relating to any modification of the Consent Decree at any time, including but not limited to the reasons and need for the Motion and the extension identified therein. (*See* Motion at 2.) This request also includes documents concerning discussions about any other previous extensions of the Consent Decree deadlines not identified in the Motion.

- All records, files, reports, memoranda, correspondence and documents in your possession regarding conversations held “on several occasions” with counsel or representatives of National Parks Conservation Association, including but not limited to Reed Zars, relating to any modification of the Consent Decree at any time, including but not limited to the reasons and need for the Motion and the extension identified therein. (*See id.*) This request also includes documents concerning discussions about any other previous extensions of the Consent Decree deadlines not identified in the Motion.
- All records, files, reports, memoranda, correspondence and documents in your possession regarding conversations with counsel or representatives of Environmental Defense Fund relating to any modification of the Consent Decree, including but not limited to the reasons for the Motion, the modification of the Consent Decree, or the modification or extension of any related deadline. (*See id.*) This request also includes documents concerning discussions about any other previous extensions of the Consent Decree deadlines not identified in the Motion.
- All records, files, reports, memoranda, correspondence and documents in your possession related to the “new information developed” “new information gathered” and the rationale underlying how “this new information is significant” since the comment period on EPA’s proposed rule on Wyoming’s regional haze plan under 40 C.F.R. § 51.309(g), 77 Fed. Reg. 33,021 (June 4, 2012) as referred to in the Motion. (*See id.* at 3.) Please identify all such information placed in the Wyoming Regional Haze Docket.
- All records, files, reports, memoranda, correspondence and documents in your possession regarding or relating to EPA’s analysis and additional research evaluating comments submitted in connection with 77 Fed. Reg. 33,021, including any and all new costs and visibility analyses as referred to in the Motion. (*See id.* at 4.)
- All records, files, reports, memoranda, correspondence and documents in your possession regarding or relating to EPA’s analysis of BART compliance dates for the installation of BART emissions controls in Wyoming as referred to in the Motion. (*See id.*)
