(3) TARIFF Re: PacifiCorp - In its February 12, 2009 order in Docket No. 08-035-78 on Net Metering Service, the Utah Commission directed the Company to calculate and file Schedule 37 avoided costs annually in order to establish the value or credit for net excess generation of large commercial customers under the Schedule 135 Net Metering Service.

In addition to your normal review of this filing, please address whether the date of this filing is consistent with filing requirements specified on Page 24 of the Commission's February 12, 2009, Report and Order Directing Tariff Modifications in Docket No. 08-035-78 as follows:

“Consistent with the updating requirements for the FERC Form No. 1 method, we also require the Company to update the avoided cost pricing in Schedule No. 37 annually, concurrent with the approval and establishment of rates for larger commercial and industrial customers based on the FERC Form No. 1 method.”
