
ELECTRIC SERVICE SCHEDULE NO. 31 - Continued

METERING: Customers shall be metered with profile metering equipment. Such metering equipment shall be installed such that both power and energy provided by the Company can be measured during time intervals of not more than fifteen (15) minutes. The Customer shall be responsible for providing wiring and meter bases for all required meters. Customer shall provide at the metering point a telephone line so that the meter can call periodically to report its measurements to the Company facilities, or so that the meter can be interrogated by Company facilities. A dedicated telephone line will be required if necessary communication with the meter cannot be achieved by use of a non-dedicated line. Customer shall provide and pay all initial and ongoing costs for such telephone line connection availability at each metering point.

TOTAL CONTRACT DEMAND, SUPPLEMENTARY CONTRACT DEMAND, AND BACK-UP CONTRACT DEMAND: The Customer shall contract for Total Contract Demand. This shall be the sum of the Supplementary Contract Demand and the Back-up Contract Demand. The Customer may elect to increase Total Contract Demand by increasing Supplementary Contract Demand and/or Back-up Contract Demand prospectively at any time, provided there are facilities of adequate capacity, by providing notice to the Company. The Customer may elect to increase Total Contract Demand by increasing Supplementary Contract Demand and/or Back-up Contract demand retroactively to the most recently completed billing cycle, provided there are facilities of adequate capacity, by providing notice to the Company by the statement due date of the billing cycle. Any increase in Total Contract Demand shall establish a new Total Contract Demand which shall be in effect for the term of the contract, unless superseded by subsequent increases.

Customers experiencing seasonal variations in their load may temporarily reduce their Supplementary Contract Demand during one continuous portion of each year when usage is low. The period and the amount of the reduction shall be specified by contract. The period of reduction shall commence at the beginning of a billing cycle and terminate at the end of a billing cycle. In the event that the Measured Demand exceeds the sum of the reduced Supplementary Contract Demand and the Back-up Contract Demand, in any billing cycle during of period of reduced Supplementary Contract Demand, then, for that billing cycle, the reduced Supplementary Demand shall be set equal to the Measured Demand less the Back-up Contract Demand, but not greater than the Supplementary Contract Demand unless the customer elects to increase the Supplementary Contract Demand in accordance with provisions of the previous paragraph.
