

ELECTRIC SERVICE SCHEDULE NO. 118 - Continued

DEFINITIONS: (continued)

Agency: A non-profit group, State, Municipality or County authorized to receive funds for installation of weatherization materials in low income properties.

Energy Audit: A service provided by the Agency that includes the measurement and analysis of the energy efficiency of a dwelling including energy savings potential that would result from installing energy efficient measures that are determined to be cost effective.

Low Income: Households qualifying under the federal low income guidelines and certified for eligibility according to agency procedure. Income eligibility is based on current requirements set by DCC.

Major Measures: Ceiling insulation, wall insulation, floor insulation, and window replacement, applicable in dwellings with permanently installed operable electric space heating systems.

Supplemental Measures: Measures that are not required under this schedule, but may qualify for a Company reimbursement.

Additional Measures: Measures where reimbursement is specified instead of calculated as 50% of the installed cost.

FINANCIAL ASSISTANCE:

- (1) The Company will reimburse the Agency 50% of the installed cost of all major measures and supplemental measures installed, and 50% of the cost related to refrigerator testing, as required in this tariff. These reimbursements will be calculated after property owner contributions are deducted. Financial assistance on additional measures that are not calculated as 50% of the installed cost are detailed under the Additional Measures section in page 5 of this tariff. Financial assistance will be provided one time only on any individual major or supplemental measure, and up to two times per dwelling.
- (2) The Company will reimburse the Agency for administrative costs based on 10% of Rocky Mountain Power's rebate on installed measures, not to exceed the following
