
ELECTRIC SERVICE SCHEDULE NO. 126 - Continued

DEFINITIONS: (continued)

Re-Commissioning Services: The process of identifying potential RCMs and conducting M&V in order to document approved energy efficiency resulting from RCMs at a facility eligible for services under this Schedule.

RE-COMMISSIONING PROJECT INCENTIVES:

All proposed Re-Commissioning Projects are subject to Program Administrator approval prior to offering a Re-Commissioning Agreement. Program Administrator will establish and make available on the Company web site, Re-Commissioning Project approval criteria such as minimum electric energy and demand savings, minimum Customer or Owner funds committed to project implementation, on-going operational commitments, as well as Customer or Owner obligations in the event an approved Re-Commissioning Project is not implemented in a timely manner.

RCM incentives will be available in accordance with the terms of a fully executed Re-Commissioning Agreement and shall consist of (a) or (a) and (b):

- (a) Program-Administrator funded Re-Commissioning Services, where Customer or Owner shall provide specified minimum investments for RCM implementation costs, and where the estimated Re-Commissioning Project simple payback period is less than or equal to one year. Determination of Re-Commissioning Project simple payback period will be made by the Program Administrator.
- (b) Incentives paid by Company deemed appropriate by the Program Administrator to reduce the Customer or Owner simple payback of a Re-Commissioning Project to one year. Payment of the incentive is subject to the terms and conditions of the Re-Commissioning Agreement.

The Customer or Owner may receive only one incentive from the Company per RCM, including Energy Efficiency Payments and Self-Direction Credits provided under other Schedules of the Company's tariff.
