Mike,

One other item: attached is our form waiver that allows PacifiCorp Transmission to share information about your project with PacifiCorp Merchant. You are not required to execute the waiver, but it will facilitate discussion on interconnection issues as we finalize the PPA.

Thanks,

Paul

Mike,

Attached is the latest version of the Utah QF PPA for the Blue Mountain project. I believe this version reflects the items we discussed on our last call. I think we are getting very close on this agreement. At this point, we need the following in order to move forward:

1. Please provide the information in the exhibits that is project specific. I will fill in the pricing once that is completed with the new online date, but several other exhibits require information from you.
2. Please provide the exact legal name that will be the counterparty for the PPA, with an address and with relevant parent/ownership structure information. We can then begin to do credit analysis.

Thanks,

Paul
