Re: QF Wind Power Contract
Blue Mountain Wind Project
San Juan County, UT

Gentlemen:

In accordance with your request from your e-mail dated October 30, we are pleased to provide the following information:

1. Project Information:
 - We expect the generation technology to be either GE 1.7 MW or Gamesa G114 2.0 MW or Siemens 2.3 MW Wind Turbines;
 - The proposed installed nameplate capacity of the project would be up to 80 MW;
 - See attached 12x24 matrix of the estimated time of day delivery of power from the project;
 - The site is depicted on the attached map and includes a proposed new substation and point of interconnection on Pacificorp's 138 kV transmission which bisects the property.
2. Attached is the Assignment and Assumption Agreement which among other things assigns the Lease Option Agreements to Blue Mountain Power Partners, LLC. (I believe we previously forwarded redacted copies of the agreements for your files.)
3. The County of San Juan is the lead permitting agency and issued a Conditional Use Permit for the Project on October 4, 2012;
4. The fuel supply is wind;
5. Subject to the results of the System Impact Study, we would expect the project to be in commercial operation by December 2014;

Mr. Paul Clements
October 31, 2012
Page 2

6. Attached please find an e-mail from Thomas Fishback from Pacificorp Transmission dated October 17, 2012 confirming that the System Impact Study will be complete by January 11, 2013.

Please advise if you need any additional information and we look forward to receiving the draft PPA for this project. In the event you would like to discuss this request or the project further, please give me a call. I can be reached at (805) 568-0300 x23 and my e-mail is mcutbirth@champlinwind.com. Thank you and best regards.

Very truly yours,

BLUE MOUNTAIN POWER PARTNERS, LLC
