Attention: Gary Widerburg  
Commission Secretary

Re: Demand-side management report pursuant to Commission order in Docket  
No. 09-035-T08

In its order in the above referenced docket dated August 25, 2009, the Public Service Commission (“Commission”) approved the Phase I stipulation agreed to by parties in that docket and filed with the Commission on August 3, 2009. As specified in the stipulation, Rocky Mountain Power (“Company”) is required to provide to the Commission and Advisory Group on a semi-annual basis a Utah DSM tariff rider balancing account analysis similar to that originally provided by the Company in Advice No. 09-08. The DSM balancing account analysis provided as Attachment A reflects actual results through June 2013 and projects Utah DSM expenditures and Schedule 193 revenues through December 2014. Due to revised delivery transition costs associated with the Cool Keeper program that have been incorporated in the attached forecast, the Company plans to file a request to cancel Electric Service Schedule 194 – Demand Side Management Cost Adjustment Credit in the near future.

An original and ten (10) copies of Attachment A are provided with this filing.

It is respectfully requested that all formal correspondence and staff requests regarding this matter be addressed to:

By E-mail (preferred): [datarequest@pacificorp.com](mailto:datarequest@pacificorp.com)

By regular mail: Data Request Response Center
