Hi, my name is Ami Hines. I had filed a complaint against rocky moutain power. I had a court date on the 17th of october however I had a family emergency in the early morning before my court appearance. I phoned and left a message asking for another court date to be available to me due to the circumstances. I left on the message to email me with another court date. I havent received a email yet. I have proof that there was a medical emergency a few hours prior to my hearing. I would like for you to take into consideration that I am disabled and the circumstances as to why I couldnt make the court hearing. Please respond on how I can either get another court date or if I need to file another formal complaint against rocky mountain power.
