RE: In the Matter of the Application of Rocky Mountain Power for Authority To Increase its Retail Electric Utility Service Rates in Utah and for Approval of Its Proposed Electric Service Schedules and Electric Service Regulations – Docket No. 13-035-184

Dear Mr. Widerburg:

Rocky Mountain Power (“Company”) is filing this Response to Utah Industrial Energy Consumer’s (“UIEC”) Objection to Proposed Confidential Information Certificate filed December 31, 2013 (“Objection”) in the above reference matter. By adding the additional language into the non-disclosure agreement, Rocky Mountain Power did not intend to do anything but restate the language that is already in the statute. Perhaps clarifying the sentence which states: “Additionally, I verify that I have returned or destroyed all confidential materials from other dockets in which I have participated, pursuant to Rule 746-100-16.3.e.” so that it instead states: “**If applicable**, I verify that I have returned or destroyed all confidential materials from other dockets in which I have participated, pursuant to Rule 746-100-16.3.e.” would make clear that counsel is not required to destroy or return confidential information.

Rocky Mountain Power received signed confidential information certificates from some parties using the previously approved Commission form, and the Company respectfully suggests that additional parties sign such Commission approved form, attached hereto as Exhibit A, until any controversy can be resolved. Any party that signs and files the approved Commission form will receive confidential materials in the above referenced matter. This resolves any concern that the Company’s filing is not complete for purposes of commencing the 240 day period under subsection 54-7-12(3)(a). Notwithstanding this Response, the Company reserves the right to address any issues raised by UIEC’s Objection.

Best Regards,

Yvonne R. Hogle  
Senior Counsel
