Mr. Petty:

The Utah Public Service Commission (Commission) received your correspondence dated February 24, 2014, regarding the net metering of electricity provided for in Utah Code Ann. § 54-15-101, *et. seq.* As you may be aware, the Utah Legislature originally enacted the net metering chapter of the Utah Code in 2002. As an agency of the state, the Public Service Commission is charged to implement and apply the Utah Code as enacted by the legislature.

We also note that Rocky Mountain Power currently has a rate case (Docket No. 13-035-184) before the Commission that proposes changes to Rocky Mountain Power's net metering tariff. Based on your correspondence, this case may be of interest and can viewed at www.psc.utah.gov. The Commission encourages the public to participate in these matters. Further, you may participate in the public witness hearing regarding Docket No. 13-035-184, currently scheduled for July 29, 2014, beginning at 5:00 p.m. Because Rocky Mountain Power's rate case is currently pending, the Commission may not comment on the case.

Thank you for your correspondence.

Sincerely,

/s/ Gary L. Widerburg
Commission Secretary
