ERRATA DPU EXHIBIT 5.34

To: Utah Public Service Commission

From: Utah Division of Public Utilities

Chris Parker, Director

Artie Powell, Energy Section Manager

Matt Croft, Technical Consultant

Date: May 9, 2014

Subject: **Errata DPU Exhibit 5.34 in Docket 13-035-184**

DPU Exhibit 5.34 (JAM model) includes an “EMS/SCADA Replacement/upgrade GNLP” adjustment that was inadvertently turned off (See cells CO3:C05 in the “Adjustments” tab) after preparing DPU Exhibit 2.5 (Division adjustment summary). This adjustment should be turned on in the JAM model. However, the Division adjustment summary in DPU Exhibit 2.5 correctly includes the “EMS/SCADA Replacement/upgrade GNLP” adjustment. Therefore, the Division’s overall recommended \$5,085,927 rate decrease remains unchanged.

CC David Taylor, Rocky Mountain Power
Michele Beck, Office of Consumer Services
