

**Rocky Mountain Power
Docket No. 13-035-184**

**Federal Executive Agencies' Responses to Rocky Mountain Power's
2nd Set of Discovery Requests in the Revenue Requirement Phase of the Case**

Data Request No. 2.1:

Mr. Meyer's testimony recommends the Commission disallowance 33% of the cost of AIP. Please provide the bases and support for this recommendation.

Response:

The 33% disallowance is a subjective estimate of the portion of the AIP payments which relate to the financial goals, lobbying and/or tasks which should be considered normal job requirements. This material provided by RMP (Test Period Information in Attachment to Confidential Folder R746-700-220.14) described the 2013 goals for Micheal Dunn, Richard Walje and Pat Reiten. Please refer to the direct testimony of Mr. Meyer at lines 187-193 for the basis of the recommendation.
