To: "psc@utah.gov" &lt;psc@utah.gov&gt;

I have rooftop solar in Sugar House. Rocky Mountain Power (RMP) , Utah's monopoly electric utility, is stamping out competition from their rooftop solar customers as evidenced by their request (as part of its recent 2014 General Rate Case application) that the Utah Public Service Commission approve a new \$4.25 monthly fee for customers with rooftop solar.

Investing in rooftop solar aligns my actions with my values and accomplishes many of Utahs' citizens' shared goals: cleaner air, increased self-reliance, greater energy independence, reduced risk from rising fuel costs and more local jobs.

Please do not permit the \$4.25 surcharge.

Thank you,

Nia Z Sherar
