Subject: Keep solar fair in Utah! No taxes.

To: tleva@utah.gov

Dear Commissioner LeVar,

Rocky Mountain Power is trying to charge solar customers a tax. This is a penalty for customers who have made a choice to produce their own power. It is a smart and more revolutionary way to produce power, and should be adapted into regular homes all over the nation.

If this solar tax is implemented, Utah will not have a chance to be a solar leader. Utah ranks 7th in the United States for solar resource but only 31st for solar homes.

WE NEED A CHANGE. Let us be forward thinkers!  
Please keep solar fair in Utah.

Sincerely,

Kara Williams
