Dear Commissioner LeVar,

I would like more information about this proposed tax on solar power, as this site is clearly biased, I do not trust everything it claims. Despite that fact, an anti-competitive tax is very concerning to me as a resident of Utah. I hope that free markets are allowed to prevail. I also believe in being a good steward of the earth and am a large proponent of solar power. While I realize that this would affect southern Utah much more directly than residents of Utah county (where I reside), I do not wish to penalize those who choose to help the environment and to control their own energy consumption and behaviors.

Sincerely,

Adam R. Carmack
