Dear Commissioner Clark,

Ridiculous! What next, somebody else telling me that we can't use wood burning stoves for heat??!!! Oh wait, that IS becoming an issue too!! Let's not turn into a state that tells you how many ounces of soda you can buy!!!! Utah ranks 7th in the United States for solar resource but only 31st for solar homes. Utah should be a solar leader but we have fallen behind.

If Rocky Mountain Power succeeds in implementing a monthly tax on solar customers, that future will never be realized.

Don't penalize customers for making the choice to generate their own clean energy. I urge you to support Utah's clean energy future and oppose this unfair tax.

Sincerely,

Rachel Coates
