Subject: Do NOT tax solar!
To: drexclark@utah.gov

Dear Commissioner Clark,

Rocky Mountain Power is trying to charge solar customers a tax. This is a penalty for customers who have made a choice to produce their own power. Solar should be promoted, not taxed to oblivion, in order to reduce reliance on less green power sources.

If this solar tax is implemented, Utah will not have a chance to be a solar leader. Utah ranks 7th in the United States for solar resource but only 31st for solar homes.

Please keep solar fair in Utah. I urge you to be pro-active in promoting clean, sustainable energy !

Sincerely,

Bonnie Moore
