Subject: Help us help Utah.  
To: [tleva@utah.gov](mailto:tleva@utah.gov)

Dear Commissioner LeVar,

With pollution at high levels, it would be important to promote clean energy. I know below is a form letter, but it is still important. I am in the military, when I get out, I want to return to Utah. But if Utah does not want to support its people in making clean energy, I will not want to live there. I visited last winter and was disgusted with the air quality.

I encourage you to help your people out. Help me help Utah with clean energy.

Rocky Mountain Power is trying to charge solar customers a tax. This is an unfair penalty for customers who have made a choice to produce their own clean power.

If this solar tax is implemented, Utah will not have a chance to be a solar leader. Utah ranks 7th in the United States for solar resource but only 31st for solar homes.

Please keep solar fair in Utah.

Sincerely,

James Johnson
