Hi there,

I am a resident of downtown Salt Lake City. I work in the Triad Center and watch the pollution that is generated from the oil refineries north of my office.

I encourage you to ENCOURAGE home owners, landlords and businesses to embrace solar power. Let's make Salt Lake City a wonderful example of how the air quality can be improved by the resourcefulness of a terrific city's residents, businesses and government.

Thank you very much for your consideration.

Lydia Trettis

Resident of Downtown Salt Lake City who considers moving to another, less polluted state every January.
