I write to express my strong support for Utah rooftop solar customers, and **my opposition** to Rocky Mountain Power's proposed fee increase of \$4.25 per month targeting these customers. Utah's solar owners are making critical investments in clean energy at a time when Rocky Mountain Power is not.

I stand with the rooftop solar energy producers of Utah and ask that **the \$4.25 solar penalty not be approved**. Their personal investment in clean energy creates clear benefits to Utah's health, environment, and economy. They should not be penalized; rather, they should be commended.

Sincerely, Marsha Johnson
